DataCamp once asked me to join their teaching team

New Year, New Courses to Teach at DataCamp - Check Em' Out! Inbox ×

Jen Bricker <kelsey@datacamp.com>
to me

Hi Kasidis,

DataCamp is proud to present an exciting slate of new Courses rolling out in 2019 - and we want to give YOU the first chance to teach them!

We are introducing brand new courses in;

- Python
- SQL
- R*

*(*ONLY the R courses on the wishlist are available at this time. We expect these to go quickly, so respond quickly before they're all gone!)*

The current list of available courses can be found here.

If you're interested in joining us, apply here - or let me know if I can answer any further questions.

Cheers -

Jen Bricker - Head of Instructor Recruiting

Kelsey McNeillie - Instructor Recruiting Coordinator

Kasidis, you're a great fit for our Data Scientist Certification Inbox ×

Toon from DataCamp <careerhub@datacamp.com> Unsubscribe
to me

Hi Kasidis,

As one of DataCamp's most skilled learners, I wanted to personally reach out to let you know about our Professional Data Scientist Certification.

This is the perfect time to get certified because we just launched a summer certification challenge. Opt-in by August 5 and complete your certification by September 30 to receive a career coaching package—more than $400 in value.

Once you're certified you'll get access to resume and portfolio reviews, mock interview sessions, personalized job matching and so much more!

Click here to get started.

See you on DataCamp soon,
Toon Peters

Data Science Bootcamp

สวัสดีนักเรียน Bootcamp รุ่นที่หนึ่งทุกคนครับ หลักสูตร `Bootcamp` ที่เข้มข้นที่สุดในประเทศไทย สอนครบจัดเต็มทุกสกิลสำคัญ เตรียมความพร้อมทุกคนสำหรับอนาคต

Live + Video On Demand

Our Learning Journey

Live Classes

- Live 01 – Introduction to Data Science
- Live 02 – Analyzing Data with Spreadsheets
- Live 03 – Databases with SQL
- Live 04 – Programming Foundation
- Live 05 – Data Wrangling
- Live 06 – Data Visualization
- Live 07 – Business Analytics and Statistics
- Live 08 – Applied Predictive Modeling with R
- Live 09 – Python for Data Science
- Live 10 – Machine Learning with Python
- Live 11 – Tableau Public + Data Studio
- Live 12 – Build Your Online Portfolio

Saturday Morning

35–36 hours (minimum)

Data Science Bootcamp #2

- Sprint 1 - Spreadsheets (10 Hours)
- Sprint 2 - Databases (10 Hours)
- Sprint 3 - Programming for Data Science (12-15 Hours)
- Sprint 4 - Data Visualization (5 Hours)
- Sprint 5 - Business Statistics (15 Hours)
- Sprint 6 - Machine Learning (5-10 Hours)
- Sprint 7 - Python
- Sprint 8 - Dashboard
- Sprint 9 - Exam Preparation

Google Sheets 102

- Download Exercise File
- EP01 - Import Data
- EP02 - COUNTIFS
- EP03 - SUMIFS
- EP04 - FILTER
- EP05 - SORT
- EP06 - VLOOKUP Exact Match
- EP07 - VLOOKUP Approximate Match
- EP08 - INDEX MATCH
- EP09 - DATE
- EP10 - DATEDIF

Google Sheets 103

- Download Exercise File
- EP01 - Intro to QUERY function
- EP02 - Select Data
- EP03 - Filter Data
- EP04 - Dealing with NULL values
- EP05 - Aggregate Data
- EP06 - Aggregate Data by Group
- EP07 - Label
- EP08 - Pivot
- EP09 - Order By

Who we are

TrueMoney is a leading international Fintech brand and is part of Ascend Money, a digital financial services venture of The Charoen Pokphand Group (CP Group) and Ant Financial (Alibaba), two of the largest companies in Asia. We are now one of the largest financial life platforms in Southeast Asia, growing from just 1 market to 6 markets in a span of 2 years. We currently have significant operations in Thailand, Cambodia, Myanmar, Indonesia, Vietnam, and the Philippines.

Job Description

- Collaborate and work closely with cross-functional business across regional BI teams to identify data management gaps and issues.
- Perform data extraction from operational databases / various sources, setting up data pipelines to
align and sync data marts for operational BI reporting
- Ensuring data pipeline is running on 95% availability.
- Fix data inconsistencies and data definitions across regions and ensuring 99% data consistency and accuracy.
- Using data and apply relevant statistical methods to figure out market and business trends to
increase profits and efficiency.
- Generating accurate key measurements performance report in timely manner; including consistently monitoring and update to both local and regional team.
- Perform ad-hoc analysis to analyze business cases and present it to stakeholders

Qualification

- Degree in computer engineering, computer science, information systems, or any related field
- Min 2 – 3 years working experience

Mandatory Skills

- Experience in data extraction, transformation and loading (ETL) tools, e.g. Jenkins
- Structured Query Language (SQL) scripting, Python scripting (R will be a good to have)
- Experience building data visualization dashboards using Google Data Studio (Tableau will be a good to have)
- Experience working with data residing on Google Cloud Platform, Big Query Tables.
- Good communication skills in English

Machine Learning 101 — สร้างโมเดลแรกของคุณง่ายๆด้วย Excel

อยากเริ่มทำ Data Scienceโดยไม่ต้องเขียนโปรแกรม?

เชื่อว่าหลายคนต้องมีความคิดแบบนี้ :P อยากลองทำ data science / machine learning แต่ยังไม่มีเวลาเรียนเขียนโปรแกรม ... งั้นลองทำใน Excel แทนได้ไหม?

ตอบเลยว่า ได้ซี่ !! spreadsheet เอาจริงทำได้ (literally) เกือบจะทุกโมเดลเลยครับ อาจจะไม่เร็วเท่า R/ Python (และถึงแม้จะไม่สามารถจัดการข้อมูลขนาดใหญ่ได้ เปิดปุ๊ปค้างปั๊ป 555+) แต่การทำ modeling ใน Excel ถือเป็นจุดเริ่มต้นที่ดีสำหรับเพื่อนๆที่สนใจด้านนี้ แล้วไอ machine learning มันคืออะไรนะ?
